

# 2024 Commercial Custom Program

## Colorado Energy Efficiency Incentive Application

Atmos Energy offers a financial incentive of 50% of the incremental project cost (up to \$50,000) for installation of eligible energy-efficiency measures. Eligibility is determined by Atmos Energy's Program Administrator's review of this application.

### Preapproval Process

*All Custom projects require pre-approval before purchase and installation*

#### Step 1 – Preapproval

Submit your application, along with appropriate worksheet(s), construction drawings, bid documents and/or specification sheet. Once received, the Program Administrator will review the application. Part of the application process is to determine program eligibility.

#### Customer eligibility

- Rebates are available to Atmos Energy natural gas customers in Colorado.
- Gas transport customers are not eligible for rebates.
- All projects will be individually reviewed by the Program Administrator for costeffectiveness and must pass a cost effectiveness test.
- Funding for rebates is limited and applications will be processed on afirst-come, first-served basis.
- Once eligibility has been confirmed and the project has been approved, the Program Administrator will send an email notification of eligibility and estimated savings and incentives.

**To Submit Application:** Follow the instructions provided to you or email [custom@mesapointenergy.com](mailto:custom@mesapointenergy.com) for instructions.

#### Step 2 – Project completion

Upon completion of the project, the customer requests payment by filling out the Incentive Request Form (IRF). IRF forms are available from the Program Administrator. Completion of the project must be documented using invoices, certificates of completion, commissioning reports, startup reports, or other appropriate materials.

The Program Administrator may conduct a post-installation inspections and measurements prior to approving the request for incentive payment.

Atmos Energy Custom Energy-Efficiency Financial Incentive Program is available January 1 through December 31, or until funding is fully allocated.

#### Contact and Support Information

Mesa Point Energy is the Program Administrator of Atmos Energy's Custom Program. If you have any questions, please don't hesitate to contact us at (303) 661-0159 or [custom@mesapointenergy.com](mailto:custom@mesapointenergy.com).

All forms can be found at [www.atmosenergy.com/COefficiency](http://www.atmosenergy.com/COefficiency).
